

DD/R-484-63

Date: [redacted]

MEMORANDUM FOR : Director of Logistics

SUBJECT : Technical Proposal T-1120-31,  
[redacted]

25X1A

1. The long range operational plan for [redacted] provides for the replacement of existing aircraft with a more advanced vehicle. Concurrently, design characteristics of instrumentation must undergo extensive modification to meet configuration requirements of the new aircraft. Technical Proposal, T-1220-31 attached, relates to the redesign of the ELINT intercept system and research leading to desired improvements in the defensive system. This program has received the concurrence of the Deputy Director (Research) and constitutes a top priority with respect to our overall research objectives.

25X1A

2. Based on the attached proposal, it is requested that a new task order to Contract 728 be negotiated with Systems Research Laboratories. Requisition ELR-63-224 substantiates the \$32,633 obligation incurred by ORL for this purpose. Our justification for requesting that this contract be processed as sole source is as follows:

- a. SRL has had extensive experience in research leading to the development of airborne intercept and defensive systems.
- b. The urgency of the proposed program precludes solicitation from other sources.
- c. SRL possesses all the necessary clearances to commence work on this project immediately.

3. The association of the Agency with this contract and all reports applicable thereto are to be classified SECRET/NOFORN. The cognizant project engineer is [redacted]  
[redacted]
